

# Post Symposium Training Honolulu Aug.13-14

## PM4EM Day Foundations-2 Workshop (12 CEUs)

*Build a Shared Planning Method for Your Team*

### Planning Outputs Your Team Can Reuse & Standardize

This in-person, hands-on 2-day workshop shows emergency and public safety teams how to apply practical project management to real emergency management initiatives—preparedness, mitigation, recovery, exercises, and response projects. Participants use the PM4EM Foundations framework to build draft project plans and establish a shared baseline for scope, schedules, budgets, and execution roles—reducing friction and accelerating follow-through across teams and partners.

Register Today!

#### Learning Outcomes

Participants will be able to:

- Apply PM methods to real emergency management initiatives
- Define scope + deliverables (SOW) and build a WBS
- Create a milestone schedule and draft a budget framework
- Use simple controls to track progress and manage change
- Keep scope-schedule-budget aligned using the PM4EM framework
- Identify clear next steps to refine and implement the draft project plan within your organization.

**Want PM4EM Foundations delivered to your team?**

*Request a hosted cohort and schedule a short fit check to confirm goals, audience, and preferred initiative focus. One shared method. Clearer execution across your network.*

## → Agenda: In-Person Delivery

### Day 1: Introduction

Module 1: Project Management & Emergency Management Overview

Module 2: Managing the Project Scope (SOW)

Module 3: Work Breakdown Structure (WBS)

### Day 2: Module 4: Scheduling the Project

Module 5: Managing the Project Budget

Module 6: Other Key Plan Elements (overview)

Module 7: Monitoring & Controlling the Project

Conclusion & Next Steps

**Andrew Boyarsky**  
Founder & President  
Lead Instructor

**Anthony S. Mangeri**  
Instructor

**Adam N. Tager**  
Instructor, Module 3

**Kelly R McKinney**  
Instructor, Module 9

## → What You Leave With

- Printed Participant Guide (slides + exercises)
- Reusable templates: scope, schedule, and budget
- Copy of Riding the Wave: Applying Project Management Science in the Field of Emergency Management
- Your own draft scope, milestone timeline, and budget by the end of the day
- A free 30-minute consultation with the instructor post workshop

## → Optional Add-Ons

- Pre-work collection (participants submit initiatives in advance for faster build time)
- Post-bootcamp office hours (implementation Q&A session)
- Bridge to PMP®/CAPM® certification
